

# Interior Paint Checklist

- Add new wallpaper if the current wallpaper is torn or withered. Make sure it adheres to the wall
- All woodwork like stairwell railings and doors should be repainted and or stained
- Have leaks repaired & watermarks covered
- If needed, repaint faded, worn or stained interior walls
- Make sure that cracks in ceiling/walls are repaired
- The windows should be washed and stain free. The window frames should be painted if necessary and the hinges should not squeak
- Tone down bright room colors by painting them white or a neutral color
- Whitewash dark paneling
